The case has now materially changed. Louisville, from having heen a market for the manufactures of other towns, is now not only supplying the wants of her citizens, but is sending abroad very large quantities of superior and tasteful furiture of her own make; and instead of paying out large sums for articles produced in other places, she is constantly adding to her means, hy aupplying Southern and Western markets with a considerable portion of what they want in the way of furniture. When the Nashville Railroad is completed, and furniture can be sent readily, at cheap rates, to Southern Kentucky and Tennessee, we anticipate for our manufacturers, in that particular line, a very large increase in their husiness, and expect to see Louisville made furniture occupy a prominent place in the list of exports from onr market. When within six or seven hours hy rail, of Nashville, our intercourse will he grestly increased, and we have no doubt that our Tennessee friends will find it to their interest to huy their supplies at this point rather than go further

Among a number of manufacturers who have contributed to produce such a revolution in the furniture trade of this city, we notice, particularly, Mr. John M. Monahan, Messrs. John M. Stokes & Son, and Mr. John Simm. They have been for many years constantly engaged in the husiness of manufacturing, and turn out from their workshops as fine furniture as is made anywhere .-Messrs. Monahan, and Stokes & Son, have their ware-rooms on Main street, between Second and Third, and Mr. Simm is located at the corner of Main and Seventh streets. Their work shops are further hack in the city. They all employ large numbers of the best workmen, and use the best quality of materials. Their work is sold at fair prices, and the quality guaranteed. It is a real pleasure to walk through their handsome establishments, and see the articles of necessity, comfort, elegance, and luxury which they display, and which are the productions of the industry and taste of the proprietors and their operatives. We intend to notice these and other similar establishments more in detail at au early day, helieving profits on hand, and seeing that the city gets the that we can do nothing more beneficial to the henefit of her portion, by having it invested to the general interests of the city than to bring forward prominently, its manufacturing facilities.

THE DEBATE AT MIDWAY .- Our accomplished and reliable correspondent "Midway," gives a capital account of the debate at Midway yeater day. It will be seen from his letter in another column, that Capt. What They Think of the Courier. A correspondent who dwells among the true Democracy of Kentncky, in renewing his subscription to the Daily Courier, speaks in the follewing style of our course, as compared with that of other Democratic papers, upon the slavery

"I miss the Courier this merning, and on referring to my memorandum, I find my time up.—Forward again the Daily Courier without delay. I am subject to some little agreeable unnoyance from my good friends, who daily seek the news from the columnication. my good friends, who daily seek the news from the columns of the Courier, so that I am deprived of its perusal at leisure. A snatch must suffice. It goes the rounds, from hand to hand, in quick succession. The position of the Courier has heen bold, clear and convincing upon the subject of the right of Congress to protect property in the Territories: that those who a abort time ago, very modestly, would not deny auch a right, claimed, as a matter of expediency, that we should say nothing about it, lest achism weaken the Democratic party. This exceeding modest timidity is being rapidly dispelled by the bold and question of the most vital interest, not only to Kentucky, but to the whole South, is heing discussed throughout the length and hreadth of the Union, is it not rather a reproach to the great Democratio party, to say that we have rights recognized by the highest tribunal of our Government, yet not assert them, but tacitly suffer roment, yet not assert them, but tacitly suffer the Black Republican heresies of Douglas to he come incorporated into the Democratic creed! o, if we have rights, let the world know that we understand then; that our platform is hased upon it, and that a surrender of it, is of itaelf a issolution of the Democratic party, irreparable.

Capt. Simms at Paris The Frankfort Commonwealth of yesterday, in ts account of the debate at Paris last Thursday, eports Capt. Simms as having said, "that i ne were sent to Congress, he would vote for a law to hang a negro stealer as high as Haman." Let us hear no more, then, gentlemen of the Opposition, about Capt. Simms not being sound on he protection question. This little paragraph in he Commonweslth is proof enough on that point.

Capt. Simms is not only sound on the protec tion question, but he is going to he elected. He will be in the next Congress certain. The Opposition can't keep him out. He stands even with Harlan on the protection of slavery in the Territories, and ahead of him on everything else. Hurrah for Capt. Simms! We would give him thousand and one votes if we had them.

The Hon, Linn Boyd, We publish, this morning, a first-rate article com the Richmond Enquirer on the question of otection to slavery in the Territories. The Ennirer would be just to Mr. Boyd's position on his question, provided the article from the Lexngton Statesman, on which it comments, fairly epresented Mr. Boyd. The truth is, however, Ir. Boyd occupies the position of the Courier on his question, and the Enquirer has no cause of quarrel with us. Thus do we daily see the evil ffects produced ahroad by the misrepresentations of our candidates, for the purpose of propping up the rotten platforms of our own partizan

The Louisville Journal, echoing the idiotic ry of some stupid Democratic time-servers in Kentucky, asserts that the Conrier has abandoned ts original position on the slavery question. We are nothing about such nonsense. We are just where we started on this question, and there we ntend to remain. We are not to he driven from he true path by foes, nor seduced from it hy riends. We intend, however, very soon to show up the policical hypocrisy, chicanery, and rascality of the Journal on this question, as well as upon thers. The editor of the Journal hates slavery as he loves gin; and we intend to show at what he is aiming, by preteuding to be such an advocate of the rights of slave-holders in the Territories. He is aiming at power to he handed over to the Black Republicans, and his design shall be

Hon, J. S. Chrisman's Position upon Congressional Protection to Slavery in the Territories. Chrisman upon the Constitutional power of Con gress to protect slavery in the Territories have seen variously stated, and, in some portions of his district, intentionally misrepresented by the Opposition, it is altogether proper that his true position should he clearly stated, and misrepre-

In his debates with his opponent for Congress, Msj. Chrisman states, postituely and clearly, that he recognizes the Constitutional power of the Federal Legislature to protect the SLAVE-WNER IN THE ENJOYMENT OF HIS SLAVE PROPERTY N THE TERRITORIES OF THE UNITED STATES. At he same time, he thinks it would be impolitic, nexpedient, and dangerous to the peace of the aperious necessily. As no such emergency has risen, and does not now exist—as no Southern tatesman has yet asked or required of Congress e enactment of a penal code for the protection property in the Territories—as the Democratparty, in the Cincinnati platform, stands edged against the further agitation of the slavery uestion in the halls of Congress—and as the assage of such a measure through the next Iouse of Representives might be an impossibili--he believes it would be unwise to introduce uch a proposition into Congress at this time.— But if it shall hereafter appear that the existing awa are insufficient to afford that protection which the peculiar character of property in alaves requires, he then stands ready to secure and eserve to the South, hy his vote and his influ ence in Congress, those rights which are guaran-ed to her in the Constitution of the United States. This we, of the Fourth District, underatand to be the position occupied by all the Demo-cratic candidates in the State, and the position and policy of the Democratic party of Kentucky.

FIRNDISH ATTEMPT AT WHOLESALE MURDER.—
Another of those disbolical attempts to gratify a petty revenge, by placing obstructions on a railroad track, occurred on Saturday night, on the Indianapolia and Cincinnati road.

As the train on the Lawrenceburg road, due here at 10:30 P. M., on Saturday night, approached St. Paul's, hetween eight and nine o'clock, the locomotive struck some ties and a board fastened down on the rails, and was thrown off with the entire train, making, as we learn, a complete amash up. The accident happened in a deep cut, but fifteen or twenty feet from its mouth, beyond which was a fill of thirty feet. It was fortunate that the train was thrown directly eff while in the cut. The obstructions had been fastened to the cut. The obstructions had been fastened to the track, and it was evidently the expectation of those placing them there that the headway of the cars, after being thrown from the rails, would nrge them forward to the emhankment, where the notive, tender, and the cars, with their human freight, would be precipitated in a mangled heap to the bottom. Fortunately no person was seri-ously hurt. The engineer and fireman received some flesh wounds on the face and arms, hut

nothing serious.

Suspicion pointed to a man who fived in the neighborhood, and who, having had a couple of calves killed, had heen heard to make some threats against the road. CANVASS IN THE EIGHTH DISTRICT.

[Correspondence of the Louisville Conrier.] The Discussion at Midway.

Minwar, Kr., June 4, 1859. Minway, Kr., June 4, 1859.

Editors Louisville Courier: The candidates for Congress in thia district spoke here yesterday, and as you would doubtless like to knew something in relation to them, I will give you an account of the debate. By arrangement they each epoke one hour and a quarter, and had fifteen minutes each to reply. Capt. Simms, the Democratic candidate, opened the debate. He is an impressive man, and an impressive speaker, tall and dignified; he has a countenance, not only indicating mind, but great moral purity and integrity of character, with an eye that combines mildness, firmness, and courage. He commenced by tracing the history of the slavery question, and showed that until 1920 there was no restriction placed npon the rights of the South, but perfect equality. By the Missouri compromise, however, a great wrong was perpetrated against perfect equality. By the Missouri compromise, however, a great wrong was perpetrated against us by the exclusion of slavery from nearly the entire territory of the country. He then showed how that, not content with this violation of faith, as soon as we had acquired the vast accession of territory which the Mexican war brought, an attempt was made by the application of the Wilmot Proviso, to exclude slaves from that also, thus cutting us off from the entire Territory. thus cutting us off from the entire Territory.— He detailed the manner in which that was preented hy the compounise of 1850, when hy the declaration of the principle of equal rights in the Territories, began the work of setting right the error of the Missouri Compromise. That work was completed by the Kansas-Nebraska act, and confirmed by the Dred Scott decision, thereby placing Southerners upon the same footing as Northerners, and restoring the equality which existed in the days of Washington and prior to he Missouri Compromise. Mr. Simms claimed these triumphs as Dem cratic triumphs, and that they had been effected against the combined efforts of the Abolitionists.

and of the very men who are the leaders of the Opposition party in Kentucky. He then defined position upon the Territorial slavery que his position upon the Territorial slavery question, as hased upon the Dred Scott decision, which he stated clearly, and beyond the power of misrepresentation, to be this: That Congress haino power over slave property in the Territories, except to guaid and protect it as every other species of property; and that the Territorial Legislatures had no power but that delegated have covered it. Congress, and, therefore, could not exceed it that unfriendly legislation would be unconstitu tional, and that it was the duty of the courts t rotect owners of slaves as well as other proper y; that whenever the Territorial Legislature in terfered with the rights of slave owners, or the courts proved unable to protect them, then it was the power and duty of Congress to do so. His enunciation of the principle of protection was the strongest and plainest I have yet heard. I have only attempted to give the principal topic of Mr. Simms' speech. He referred in ad-

dition to all the points which form the Opposition bill of indictment. His review of the formation and objects of that party was the most scathing and withering piece of invective I ever listened to, and, in its delivery, he displayed the eloquence that moves the innest soul. His voice is clear, and his enunciation distinct and accurate. words is chaste and scholarly, while there is no hesitating in selecting them to make his periods rhetorical and forcible. This is the great forte in public speaking, and he possesses it a happy degree.

of the other speakers, it is not my purpose to trouble you with much detail. Mr. Trahue followed Capt. Simms. His speech consisted mainly of an account of the outrageous manner in which he had been treated by the Know Nothings, and traced the whole cause of his misfortunes to the Frankfort clique of which Mr. Harnes to the Frankfort clique, of which Mr. Har lan's father is the moving spirit. He showed how, that having been the first to raise the standard of American principles in the country when the Know Nothing party arose, it ignored his claims for office, and coquetted with him, denying him place when powerful, and seeking him as a candidate when weak. His disclosures of the party machinery were rich, and there was scarcely any one who will not regard him as very badly treated. He defined his position on other points of national policy, which were protection to slavery, and an endorsement of the Lecompton Mr. Harlan followed last. His position heing

one of rejoinder, gave him an advantage which the weakness of his cause well demanded. have heard him, you would have thought either that he was the representative of a party co-extensive with the Union, and unsurpassed for he honesty and soundness of its principles or that he stood out as simply a party in him-self. He certainly did not attempt to explain away the sins and rottenness of the pre ion. He left the charges of Capt. Simm nanswered, and, except as an instance of the lower of a man to speak an hour and a half eputed defence of a party without succeeding is speech contained no strength. I will do Mr. Harlan the justice to say, that for so young a man being only 26 years, the day before he commenced the canvass, as he informed us, he evinces no mean power as a speaker, and in a better cause would do well. But he is unfortunately made by his party to assume this race, when certain de-feat awaits him, and I regret that a youth of such promise should be an early nipped in the bud. In person, Mr. Harlan is tall, and is evito rival his hair, and his nose, rather lon its end finely colored by the incapacity heaver to protect its extremity. He wears to his pauls, and a standing collar, a scarf crava with a handsome breastpin, and a anuth colored cloth coat with a velvet collar; and his appearance indicates that distingue air which belongs to the high hred and aristocratic. But enough high fred and aristocrante. But enough, unconsciously, written you too long a letter, which you will use your judgment in publishing. Rest assured that Simms will unite the Democracy, and sured that Simms will unite that he will carry the district by a triumphant MIDWAY.

Platform of the Louisiana Democracy. The Democratic State convention of Louisiana which met at Baton Rouge on Wednesday, 25th nlt., adopted the following truly Democratic plat-

Resolved, That the Democracy of the State Louisians, while renewing their adherence to the principles and declarations set forth in the plat-form adopted by the National Democratic Convention at Cincinnati, in the year 1856, repudiate and denounce the false and heretical construction of those principles by which the rights of the South in the Territories of the Union would be sacrificed to the hostility of a local and Territorial majority; and that, while denying to the Federal Government the power to destroy those rights, for the ment the power to destroy those rights, for the protection of which Governments are established, and laws ahoul be administered, they more strenuously protest against the usurpation of any such power, either directly or undirectly, through express prohibition, unfriendly legislation or legislative inaction, by any subordinate agency.

LETTER FROM BOYLE.

[Correspondence of the Lonieville Courier.] as. P. Bates on the Stump-Irotection to Slavery in the Territories-Douglas and his Squatter

BOTLE COUNTY, Ky., June 1st, 1959. Editors Louisville Courier: It has been my purpose for the last week to write you a line, touching the prospects of the Democracy in this section of the State, and more especially to notice the fact that our District, the Fourth, has been partially visited by our candidate for Super-intendent of Public Instruction, Hon. Jas. P. Bates. The writer had the pleasure of hearing Mr. B. at Stanford, last Wednesday, and can as-sure you our cause is safe in his hands. Mr. B.'s sure you onr canse is safe in his hands. Mr. B.'s manner is forcible and attractive, his reasoning free from sophistry, and convincing; his matter well selected. His position on the power of Congress to protect slavery in Territories of the United States, in case a necessity should arise for its exercise, is orthodox, and is that of Magoffin, and our State ticket. Mr. B. on this aphiect read and our State ticket. Mr. B. on this subject read and adopted as in accordance with and expressive of his own views, that part of the Dred Scott decision in the words, viz: "No word can be found in aton in the words, viz: "No word can be found in the Constitution which gives Congress a greater power over slave Territory, or which entitles property of that kind to less protection than property of any other description; the only power conferred is the power coupled with the duty of conferred is the power conpled with the duty of gnarding and protecting the owner in his rights.

How any Constitutional Democrat can deny this doctrine, is strange to a plain man like myself. It is the only ground npon which this Union can stand. Whenever the Democratic party adopt a seeming temporary expediency for correct principle, and at the sacrifice of such principle, it will speedily die, as it will deserve to do. Better far would it have heen, that Donglas should have fallen, when making his Anti-Lecompton canvass in Illinois, than the Democratic have fallen, when making his Anti-Lecompton canvass in Illinois, than the Democratic party should he forced to engraft npon its creed the miserable demagogue principle of the right of "unfriendly legislation," and that no less silly, and aqually strong with Abolition taint, that the power to protect property in slaves carried with it the power to destroy. Sadly pressed, indeed, were the friends of the Douglas heresy, to resort to so silly and absurd an argument. If their doctrines were and absord an argument. If their doctrines were rue, then indeed, would our Legislature and our ludiciary, yea, and our Executive, have fearful powers of destruction. They all have the power oupled with the duty to protect persons and roperty coming under their jurisdiction; and if re are to adopt the wisdom of the "Lexington Statesman," and papers of kindred sentiment, they all have the power to destroy, annihilate. and abolish. Miserable justice, unworthy of ac rious consideration. But no such monstrous ab-surdity will ever find a lodgement in the Demo-cratic policy. They will sever Douglas, and those who hold his views, as they did Mr. Van Buren and Col. Benton, and in this way alone, will the Democratic party continue to be as it ever has been, powerful to defend the rights of the States under the Constitution. inder the Constitution

What, I would ask those who urge this Douglas What, I would ask those who arge this Douglas heresy upon the country, would have been the condition of the great National Democracy, if, instead of discarding Van Buren and Benton, they should, for fear of losing their influence, have countenanced their dangerous innovations in political doctrine? We would to-day have had no na

ionality as a party

Let the Democratic party more closely follow the teachings of the Constitution, never giving to the right or the left, and my word for it, and the past history of our party for it, she will continue to trinmph, and to save the country from every threstened peril. They can los: a hundred such men as Douglas, intellectually great as he is, and still she will ride the storm in safety and success. The candidates for Congress in have not visited this county as yet. Our friends are sangnine of success by an increased major ty. Yours, truly, A DEMOCRAT. majori

The President in North Carolina. The President left Washington on Monday evening, accompanied by the Hon. Jacob Thompson. Secretary of the Interior, on a visit to the University of North Carolina. Upon their arrival at Weldon in that State, on Tuesday, they were formaily welcomed by Governor Ellis and Ex-Governor Bragg, who, accompanied by several other distinguished citizens and two volunteer military companies from Raliegh and Wilmington, had proceeded thither to welcome their eminent guests, who were received in the presence of a large concurred.

arge concourse of spectators.

The remarks on the occasion were brief and ppropriate, and those of the President will atract the more interest from their announcemen of his wish to retire to private life at the close of his present term of office. After Gov. Ellis' ad-dress, Mr. Buchanan said

North Carolina. I have long contemplated a visit to your great and fruitful State, but have never heen able to do so till now. I have come now or not at all, for the age I will have stained when my term shall have ended. when I shall go into retirement, is that at which man is warned to remain at rest, and prepare for that great event which must overtake us all i have always admired this State. The Governor has spoken of me as a supporter o

the Constitution and the Union, and he has spoken truly. I ever expect to be. As long as this great harter of liberty remains unimpaired, we shall be the greatest and happiest people in the world. But let it be hattered, and we become the scorn of the world and the hope of tyrants. Thank God here is no danger to it from North Carolina, for while she may have had her differences in poli she has never wavered on the great question of the Constitution. God bless the Old North State!' At the close of the President's speech ex-Gov ernor Bragg, in a cordial address, welcomed Mr. Secretary Thompson, a native North Carolinian who briefly and eloquently replied. The ceremo nies at Weldon were then closed with a national air from the hand; and after a few minutes rest, the party including the military companies, took a special train of cars for Raleigh, where they safely arrived in the evening. The address of welcome at Raleigh was delivered by the Hon. Daniel M. Barringer, and was replied to both by the President and Mr. Thompson.

MURDER AT LOGAN'S GAP .- We are informed that a man named Fred. Bartlett, somewhat no-torionally known as a rowdy over in Ohio, mnr-dered his wife, on Saturday night last, about 9 'clock at Logan's gap, four miles below this city, n Brown county, Ohlo, where he resided. No other person was present when the bloody deed was committed, and Bartlett himself gav-information of it to his neighbors, and told tha-she had accidentally shot herself. His stories in regard to the matter were so contradictory, that suspicion was immediately fas-tened on him as the murderer, and on investiga-tion, no doubt was left on the minds of his

neighbors, that he had shot and killed her, whilst both were taking their supper. Great excitement prevailed in the neighborhood in consequence of the murder, and it was thought at one time that a mob would hang the culpri without the intercession of Judge or jury.

The Circuit Court is now in session at George town, and he will therefore be tried immediately.

The War in Europe-The First Battle. New York, June 5th.

The Herald of this morning, (Sunday,) has the The steamship City of Washington, off Cape Race, sent ns news of the first battle between the French and the Austrians in Italy. It occurred on the 21st alt, at Montebello, the scene of one hard fought struggle of the first Napoleon, and where his favorite Marshal, Lannes, won his title of Duke of Montebello.

of Montebello.

The fight puts an end to the lingering hopes entertained by a few persons that the rupture between France and Austria would yet be in some way peacefully, arranged. We hear French, Austrian and Sardinian reports, so there can be no doubt of it. The different accounts do not give similar statements as to the number engaged.—The French represent the Austrians 15,000 strong, while their side numbered but six or seven thousand, with a regiment of Sardinian cavalry. From the Austrian side it is merely stated that Gen. Stadion pushed forward a strong force for Gen. Stadion pushed forward a strong force for reconnoisance, and after a hard fight retreated in good order behind the Po. Another affair of smaller moment has taken place on the left of the allied forces, where Gen. Chialdini had forced a passage of the Jania, and Garihaldi had marged similar moment has taken place on the left of the allied forces, where Gen. Chialdini had forced a passage of the Sesia; and Garibaldi had satered Gravellena with the intention of carrying out revolutionary movements in Lombardy.

In this first fight we have some guage of the stamina of the respective combatants. On each side they were led by experienced officers of high standing. General Stadion is a well known Anstrian officer of merit, as is indicated by his having been placed in the command of the advanced guard of the army. Gen. Forry, who commanded the French, obtained a high reputation in the Crimea. There is another incident in reports worthy sotice, as indicating the effect of the presence of the Emperor on the French troops. The number of officers killed is reported large. Although Lonis Napoleon was not on the hattle field, he was at Alessandria, in the immediate vicinity, and besides being inspired by feelhattle field, he was at Alessandria, in the immediate vicinity, and besides being inspired by feelings of emulation of old Napoleonic glories, each felt that he was fighting under the immediate eye of his Emperor. With them it was glory or the grave. The fountain of all hour was at hand to witness their heroism, or to lave and sooth their wounds. When Francis Joseph reaches his camp, a similar inspiriting effect will, no doubt, be felt in the Austrian army, and Europe will witness one of theifiercest struggles, over one of the figures. one of the fiercest struggles, over one of the fairest portions of the earth, that history has ever re-

Sr. Louis, June 5. THE ST. LOUIS TRAGEDY. Mr. Charless expired Saturday morning at twenty minutes before eight. The excitement has very materially abated. No attempt to rescue the murderer is now anticipated, and the military are no longer guarding the jail. A numeronsly signed petition was presented to Judge Clover, asking him to order an immediate session of the Criminal Court, for the trial of Thorston, to which he replied, that he has not the authority to do so, the next regular term com-

The owner took the child to Eng. and, and exhibited it to hundreds of thousands a the old world. The present owner bought its mother, went to England, and institu-

ted legal proceedings in the name of the mother for the custody of the child.

The resemblance which the child bore to the mother was so strong that the presiding judge directed it to be given up to the mother, which was done. The late owner then offered to deposit in court fifty thousand dollars to the credit of the mother, if she would compit the child to him. other, it she would commit the child to again, and remain with it herself again, and remain with it herself; for, by the laws of England, she and her child were free; but the offer was declined. "What should I do with so much money?" said she; "I wish to return with my child to North Carolina," which she did by the way of New York.

Her owner then asked the mother in what manner she wished to live, and he would conform to it. She asked for a little cottage and a patch of ground where she could raise her own chick-ens. There says her master, she lives, with her hushand, and five other children which he has purchased. Two others were sold while young to a negro trader; and notwithstanding that the master of this valuable lamily has offered five hundred dollars to know who is the present owner f these two, no trace can be for

The two heads converse with each other, as do the Siamese Twins. They can sing together or separately, and can talk with different persons at separately, and can tak with different persons at the same time. This double creature can run and dance, and appears perfectly happy. It was dressed when I saw it, in white, with a crown on each head, with long, flowing, curling hair. The complexion is a dark copper color, with bright, full eyes, noticing all that takes place in their presence. But for fear of emancipation, the child would be taken North. Nearly one hundred dollars advances recovered while it would be taken to the control of the lars a day were received while it was in St. Louis.

We do not know of a single Democratic candidate in Kentucky, who holds with the Democrat this doctrine, and we know that the bulk of the party utterly repudiate such an abominable heresy. Mr. Magoffin has said as plainly as words will let him speak, that Congress has the power to protect slavery in the Territones and, instead of asserting that, as a matter of olicy, this power should not be exercised in any vent, he has said again and again, that it is the duty of Congress to exercise this power whenever necessary. So far as we can learn, every one of our candidates upon the State ticket occupies this esition, and the candidates for Congress, and for the State Legislature, hold the same doctrine. The following are Mr. Magotin's own words

upon the subject of protection : That Congress has the power to protect while it cannot prohibit slavery in the Territories; that the Territorial Legislature, as its agent, cannot exclude or abolish slavery, directly or indirectly, by unfriendly legislation; that such legislation is void, and would be declared unconstitutional by the Federal courts; that it is the duty of the Terr norial Legislature to protect slave property, and property of all kinds; that the rights of property ment, the Constitution and the laws; that our rights and remedies seem to be now complete in the Territories, and nothing has occurred to show their inadequacy; that the Democratic party has rought us to this position of safety against al the efforts of the Opposition, entertaining differ ent opinions on the subject, and forming combi-nations to destroy it; that the struggles and vic tories over other parties have clearly shown that ours is the only party capable of protecting our rights, or guarding them in the future; and if it should be necessary to pass laws to enforce the de crees of the judiciary, or even to call out troops that it would be the duty of the government to do

It . clear, then, that Mr. Magoffin asserts: 1. The power of Congress to protect slavery in

The at-ence of the power of Congress to robibit slavery in the Territories. 5. The want of any power in a Territorial Legislature to abolish slavery, either directly or in

4. The power of the Courts to declare any hos tile action ot.a Territorial Legislature against lavery uncon-titutional. 5. The duty of a Territorial Legislature to pro-

tect slavery in the Territories. c. And the dnty of the Government, whenever secessary, to pa- laws to enforce the decrees of

the Judiciary, and even to call out troops to execute them. Now, it seems to us that this protection platform of Mr. Magotlin is pretty strong. The principal dilliculty in it is the closing words, which ie insist are obscure. But we doubt not that Mr. Magorin means by the duty of Government to

ass laws to enforce the decrees of the Judiciary, and on to call out troops, THE DUTY OF BACH DEPART-MENT OF THE GOVERNMENT WHEN NECESSARY TO ACT IN ITS PROPER SPHERE FOR THE PROTECTION OF ELAVE PROPERTY IN THE TERRITORIES. perefore means that it is the duty of the ational Legislature to pass laws for the rotection of the rights of slaveholders in the erritories of the United States, of the Judiciary o act upon those laws, and of the Executive t ee that they are executed, even by the use of ops, if peaceful measures will not suffice, whenever such action on the part of either department, cting in its proper sphere, is necessary.

Although, then, Mr. Magothin thinks slavery is sufficiently protected in the Territories at this time, he is clearly, emphatically, and thoroughly or more protection whenever he is assured that it is necessary. Whenever, there fore, the Territorial Legislature fails to give adequate protec tion, and the courts cannot supply it, Mr. Magoffin is for the passage of the necessary laws by the legis-lative department of the Federal Government, the action of the Federal Judiciary npon those laws, and the assistance of the Federal Executive to enforce them. In other words, he is first for leaving the question of protection to the Territorial authorities and the courts, so long as adequate protection is thereby afforded; but whenever the rotection thus afforded is shown to be inadequate, he is for the passage of protective laws by Congress, the protective action of the courts upon those laws; and finally, if such peaceful ans will not secure the end in view, he is for nlisting the strong arm of the Executive departent of the Federal Government, backed by the troops of the United States. We hardly think that any reasonable man would ask more protection than this, or assert that Mr. Magoffin was not for Congressional protection in any event.

Will the Question Arise! The anti-protection papers are continually declaring that the doctrine of squatter sovereignty can never be a living or practical issue. Such editors certainly are either very ignorant or exceedingly stupid. We have not the slightest doubt that the question will arise up before Congress at

It will be remembered that during the last ses sion of Congress, Mr. Morris, of Illinois, as the organ and immediate representative of the views of Mr. Doulas on squatter sovereignty, offered a bill, providing that hereafter in the organization of Territories, the inhabitants thereof should be eft perfectly free to elect their own Governors Judges and other officers. This measure, we have no doctor, will be again proceed next winter. The especial guardians of "non-intervention" will then have an opportunity of showing how far they carry out that principle. To be consistent they will, we presume, sustain Mr. Morris' proposition and rid Congress entirely of the disturbing Territorial question. Hands off every way, is pure "non-intervention." Won't slavery be amply protected in the Territories when the Governors, Judges, &c., are all elected by the squatters, and when squatter Judges adjudicate on laws passed by squatter legislatures.

Hon, James S. Chrisman's Position on Protection. We said some days ago that Mr. Chrisman, the FAMILY SEWING MACHINES Democratic candidate for Congress in the Fourth District, had been grossly misrepresented on the slavery question in the Territories. We stated that we knew from Mr. Chrisman himself, that be claimed the power of Congress to protect; and A NEW STYLE. that those papers which represented him as de-nying this power, slandered him. We publish his morning a communication on the subject ting forth the true position of Mr. Chrisman on Territorial question. Our correspondent has rd Mr. Chrisman speak, and has conversed with im, and this communication may be regarded the next thing to a declaration from Mr. Chris-

1From the Richmond Enquirer, June 2d.1 Popular Sovereignty vs. Squatter Sovereignty.

Popular Sovereignty vs. Squatter Sovereignty.
The Washington "States" publishes the following:
"Hon. Linn Boyd, the candidate for Lleutenant Governor of Kentucky, has been claimed by the Louisville Courier as friendly to the proposition that Congress should be requested to protect slavery in the Territories. It entirely and thoroughly misrepresents him.
"The Lexington Statesman says that Mr. Boyd disapproves the whole movement—thinks it most unwise, utterly barren of advantage to the South, and fraught with trouble to the party and danger to the country. He believes that Congress has power to extend to slavery protection as to all other species of property in the Territories, but he does not healtate to declare his opinion that such a demand, at this time, is unnecessary, impositic, and a breach of faith withithe parties to the compromise measures of ISSO and ISSI. He believes that the South ought not now to sak a slave code for the Territories at the hands of Congress, and is opposed to Congressional intervention at this time, either to protect or in any mode regulate slavery in the Territories."

Such is the position to which absolute non-in-Such is the position to which absolute non-interventionism pushes its own adherents. If the assertion of the "Statesman" shall be found accurate, then we have reason for congratulation at Mr. Boyd's frankness—while we regret that a statesman of his distinction should be misled into tional rights of the States, and especially with the interests of the Southern States. Nay, the a position so much at variance with the constitubest interests of all the States of the Union demand that the slavery question shall be settled on a permanent basis; and every light of experi-ence or of forecast demonstrates the fact that no basis of settlement can be permanent, unless it shall consist in a strict recognition and obser-vance of the letter and spirit of the Constitution

f the United States. Admitting the fact that the Constitution does onfer on Cougress the power to protect every pecies of persons and property in the Territo-ies, Mr. Boyd is obliged to admit that it is the mperative duty of Congress to pass all acts nessary to secure such protection This is an instance in which power and duty are

But Mr. Boyd urges that Congressional protection to a certain species of property is "unnecessary." How unnecessary? Unnecessary at present? This is at least doubtful, at this moment, when a Territorial Legislature is openly attempting the abolition of slavery. Certainly, Mr. Boyd cannot pretend to such prophetic inspiration as would authorize the assertion that henceforward and forever Cougressional protection to the rights f persons and property in the Territories, will e "unnecessary." So far as the necessity is oncerned, Congress should be left where the Constitution leaves it, to judge in each instance that may arise, what legislation, if any, is "nec-essary and proper" for the sufficient protection of

persons and property.

Mr. Boyd lurther urges that any demand for tection, from Congress, at this time, would be impolitic. This depends upon the question as to the necessity for protection at this time, and does not touch the vital question at issue. That question the vital question at issue. tion is, shall the people of any part of the Union, abjure, renounce or waive their unquestionable right to the protection of their persons and proprty by each and every department of the Genera

Finally, Mr. Boyd objects to a Constitutional exercise of power by Congress, as involving a breach of some agreement entered into by cer-tain "parties to the compromise measures of 1850 and 1854."

These "parties," we presume, are the members of Congress who voted for the measures referred to. Did Southern members, by voting for certain of the Compromise measures of 1850, or for the sub-sequent Kansas-Nebraska compromise, intend to quest Kansas-Nebraska compromise, including the power and duty of Congress to protect persons and property in the Territories? loubt whether many will be found to admit such intention, and many have certainly denied it.— But suppose they did. How, then, is their action binding? Look at the state of the case. A member of Congress takes an oath to support the Constitution. The Constitution makes it his duty to vote for laws protecting persons and property in the Territories. He enters into a partisan agreement to oppose the passage of such laws. Which must he violate—the oath or the agreement? This sumple statement of the case is sufficient to exsimple statement of the case is sufficient to expose the pretence about a "breach of faith" so industriously harped on by non-interventionist partisans. If any member of Congress has entered into an agreement to violate the Constitu ion, that agreement is in no manner binding on the people of the United States, or on the Damo-

party-and he owes it to "good faith"-he owes it to his oath to violate the agreement.

As for the catch-word "slave ccde," so frequent employed, we seriously protest against its em-loyment by other than Black Republican presses d orators. It smacks of Aholitionism, and does and orators. It smacks of Adolitionism, and does injustice to the position and the just demands of the South. We ask for no 'slave code." We ask for no peculiar or exclusive privilege for slave persons and slave property. We only ask that all persons and all property shall receive from the General Government the measure of legal protection awarded them by the Constitution. protection awarded them by the Constitution A word more. We recommend to all of our Southern hrethren, who are "weak in the knees" on the subject of Constitutional right, a perusal of the manly, straight-forward, conservative position announced by the Democratic Standard, of Concord, New Hampshire. We will publish here-after the article at length. At present an extract

must suffice:

"The Washington organ, ('the Constitution,') we linagine, will find that it will be compelled to take the only true and substantial ground with reference to this question, which can be taken, viz: That all property, existing in the form of slave labor, or cattle, or increas, or in any other form, must be fully protected in the Territories, 1st, by the people of the Territories, 1st, by the people of the Territories, 1st they will; 2d, by the judiciary, if that shall prove adequate; and if both the former fail, or prove inadequate to pretect such property, then, 3d, by Congress and the Executive power of the Maled States. To propose anything short of this, is a chear, a delusion, and will be repealed by all honorable minds."

Read it, gentlemen of the South, and say whether with this, the language of a leading Northern Democratic paper before you, you will agree to infringe the Constitution of the United States, for the purpose of yielding up your own

States, for the purpose of yielding up your own rights of property a sacrifice to sectional clamor. The great principle of popular sovereignty must be maintained. Whenever the people of a Territory assemble to form a State Constitution, they, and they alone, have the right to abolish or to protect property in slaves or certificeth. to protect property in slaves, or cattle, or horses or in any other form. And this principle of pop-ular sovereignty never can be fairly and fully maintained, if we are to allow its exercise to be preceded and superseded by the anarchy of squat-ter severeignty, snatching power regardless of the equal rights of the States, the letter and spirit of the Constitution, and every principle of the "law

They joined the Union Opposition. They nominated Josh. Bell for Governor. Josh. Bell is their idol, now. They swear by him, support him, and declare their willingness to die for him. Josh. Bell says Marshall did wrong when he voted against the administration on the Kausas question. He says Marshall did wrong when he defended "Americau" principles, and declares that the principles and spirit of that order menaced civil and religious liherty. Yet Josh. Bell's friends couldn't get along without the aid of this man, whom their leader repudiates. They nominated Mr. Marshall for Congress in his district. He begs to be excused from swallowing that pill. He begs to be excused from swallowing that pill He refuses to accept the nomination. He won't stultify himself to that extent. He sets a good example for every honest "American."—Mays

RHEUMATISM. - This afflicting, painful and pardyzing disease seems to be more prevalent, just now, than we have ever before known it in sum. mer. We hear of many cases of it, especially in its inflammatory form, which is very painful, and its inflammatory form, which is very painful, and often dangerous, more especially, as in changing from this to the chronic form, it often stillens or dislocates the joints, contracts the muscles and teudons, and thus renders the patient au invalid for life.

Dr. Mortimore, whose office is on Third street, n this city, opposite the Journal office, has for years made the treatment of this disease his prinipal speciality, now has a large number of patients under successful treatment-cases including every form of the disease. His remedy has proved very successful in every part of the Union where introduced. Recent inflammatory cases are easily cured by the use of his remedy, while he has also cured vast numbers who were helpless, and had not walked for ten and even twenty years. All who are afflicted, should avail themselves o his advice and use of his remedy as early as possible.

FRUIT JARS. THE undersigned having again accepted the agency call the attention of the above Jars, would respectfully call the attention of everybody in the fruit growing regions to them. They are admitted to be the only Jar that oan be used year after year for preserving Fruits and Vegetables in their natural state. This ware is manufactured from a composition which vitrides in burning, and becomes nearly as stony as east iron, and a cincular pervious to acids as glass, and as they are free from any metalic fatteres, there can be no objections to them on account of poison, light, porounness, ac., which have condemned cam made of other materials. We sold these Jars in large quantities last year, and know not of a single instance where they did not give entire satisfaction. We are now prepared to fit orders to any amount at reduced prices from last season.

BY TELEGRAPH.

From St. Louis Sr. Louis, June 5 .- The Utah mail brings Sr. Lovis, June 5.—The Utah man brings a proclamation of Gov. Cumming, commanding various parties of Mormons associated together in a military capacity in the mountains surrounding salt Lake Valley to immediately disperse. The Valley Tan complains that this proclamation is not put into the hands of Federal officers to execute, instead of the Territorial Marshal, and asserts that treason is as rife in the Territory now as before the advent of the army.

The overland mail arrived last night. Eight white usen, prospecting for silver near loney Lake, had been killed by Indians. The house of Col. Stevenson, at Red Bluff, was surned on the 11th. Stevenson's wife and another roman and five children perished in the flames. The Arizonia of the 19th is filled with accounts of the proceedings of a band of regulators who had driven all the Mexicans from Senorita Valley nd committed several murders. Americans at Tubac publicly denounced the outrages and the company. Troops had been detailed from Fort Buchanan to suppress further proceedings.

tions of the stomach and bowels, both of a costive and dysenteric character, and all the maladles of womer and children, have been cored by the use of Branlreth's Pills. To tell you that I have paid two millions of dollars to make this truth knownn, is of itself an asounding fact; and never was a truer word snoken. An what is the result? Why that about three million persons in the United States partially believe in their effi acy and have a general idea of the benefits to be derived from purgation in sickness. But what a field for philanthrophy! What millions remain to be converted! and let me say that this knowledge is second only to Christianity in the benefits it is capable of conferring on mankind. Let not medical men persuade you that Brandreth's Pills are a quack remedy. It is no such thing. What I sell you for two shillings these men ould not furnish for a doliar. My herbs and extracts are all prepared in my own laboratory, where a steam ngine of one hundred and forty horse power is emloyed exclusively for this purpose, besides an extenlive water power. In using these pills you risk nothing, for they have been used by millions; so that should yon feel disposed to take a sly dose, you will be able ertainly to live through the operation; and you may have the laugh on your side when the doctor tells you that he hit your case exactly with that last medicine. Go on in use of the Plils. They will cure you without hartlng yoar teeth or gums, and in every way improve your health. Brandreth's Pills 25 cents per box, and those coated with sugar by a new process, 12 ln a box, 13 cents per box. All the Insect tribe will kill.

Judge Meigs, President of the American Institute says:-"The discovery of this powder, by Prof. Lyon, is of national importance. The Farmers' Club have tested it thoroughly. Locusts, grasshoppers, ants, bugs and all vermin can be destroyed, gardens preserved and houses made pure. It is free from potson to nankind, as we saw Mr. Lyon eat it." There is no uestion as to the great efficacy of this article. A few applications destroys every thing like garden worms, bed-bugs, fleas, ticks, roaches, &c. ANNOUNCEMENT OF THE PROPRIE TOR FOR THE SEASON OF 1859. IMEOMIO WHITESULPHUR SPRINGS

OHIO WHITE SULPHUR SPRINGS

ON THE 1ST DAY OF JUNE.

THE WHITE SULPHUR beautiful Ariesian fonntain, situated near the rocky

MEDICINAL PROPERTIES. For years these Springs have been highly esteemed for their medicinal properties. During the past season their reputation in this respect has been singularly confirmed. They were administered by a physician, judicionsly as to quantity, time of drinking, continuance, &c., and an-der this systematic plan the cures were numerous and gratifying.

THE WHITE SULPHUR WATER s peculiarly serviceable in those disorders of the Liver and Stomach which so often afflict gentlemen who hava seen too closely confined to business, and persons of se-lentary habits. THE CHALYBEATE SPRINGS

are permanent tonics. Their effects upon broken-down and debilitated constitutions have been not transient but lasting, giving to the blood a new vitality, and to the person new life and vigor. THE MAGNESIAN WATER is a gentle aperient.
Invalids may rely upon every facility being furnished Invalids may rely npon every facility being furnished them which can contribute to health and comfort.

As a delightful resort during the summer months, the Ohio White Sulphnr Springs have no rival in the West, and but rew in the United States. The location is peculiarly healthy; the Scuto here is a rapid, rocky stream; the "Cliff Limestone," a formation hundreds of feet in thickness, through which the river cntaits way, is everywhere either at or near the surface; the grounds of the estate are beautifully undulated, and interspered with numerons ravines which carry off all the superfluons water, thus rendering the soil dry and the atmosphere free from that humidity so prejudicial to health; these circumstances, taken in connection with the altitude of the place, about 1,000 feet above the level of the ocean, make the locality as free from malarious influences as a mountain region. a mountain region.

The Spring property consists of 320 acres of land, one hundred of which is covered by one of the most beantiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two

BATHS. BATHS.

Bathing here by the plan adopted is brought into fair competition with that at naturally Warm and Hot Springs. The water is heated in the bath tue by steam pipes; the heat not being raised high snough to precipitate its salts, it is by this system applied to the surface of the bather without the loss of its saline ingredients.

TELECRAPH OFFICE TELEGRAPH OFFICE,

A Telegraph Office, communicating with all parts of the country, has been established at the Springs. To be thus in connection with distant points, will be a great convenience to gentlemen who can hear from and direct their business affairs daily.

All the accessories necessary to health, pleasure and amusement, visitors may expect to find at the Ohio White Sulphur Springs, as the proprietor is determined to make it, in every particular, a first class watering place. Gratified with the liberal patronage extended last year, no effort will be spared to merit its continuance. ance.

It would be well enough for ill boatmen to make it a rule to have no connec tion whatever with railroad lines. We copy the following extracts from our St. Louis exchanges: All the old packet companies between Bt. Louis and Et Paul, and the Illinois Central Railroad, have combined to break down the Northern liners; freight and passengers are being carried for a mere song; mandate has gone forth from Galena, that but one line of boats shall run on the upper Mississipl, and only thirty days are allotted to the Northern line to leave, at the end of which time, they must of course die.

which time, they must of course die.

We trust such an arrangement will soon be made, so that neither line will die of a suicidal policy.

It was rumored that an important change is to be made in the Missouri river line of packets. It is this, as far as we can learn—and we understand a meeting of the officers of the Association was held yesterday, in relation to the matter—to have sixteen boats in the line, all of which will run through to Council Biuffs and Omaha, one boat learing every day. It was also proposed to ignors St. Joseph, as a haulting place, and stop at Elwood instead. It will secure to the boats a large amount of business, that would otherwise find its way over the Hamibal and St. Joseph Railroad, and give travelers an opportunity of going shrough.

Feeights Advanced.—The raise of freight have leb time, they must of course die

FEEIGHTS ADVANCED.—The rates of freight have been again advanced, as follows: To Now Orleans, pound freights 35 cents through, and 40 cents to way points; flour 60a70 cents per barrel, pork 70 to 80 cents, whisky \$1 to \$1 25, tobacco \$6 per bogshead, live stock \$7 for mnles and \$6 for bases. To \$1 Louis pound freights are 25 cents: hogshead, live stock \$7 for mules and \$6 for horses. To St. Louis, pound freights are 25 cents; flour and whisky 40a50 cents per barrel.

BY TELEGRAPH.

Washington, June 6.—The Home Squadron is a till further to be increased. The frigate Sabine of 50 guns will soon proceed to the gulf. There will then be 10 vessels of war, having in the aggregate 212 guns, as one vessel has already been ordered to Tampico to land marines and other forces, if necessary to protect American citizens and their property in the order to receive here and their property, in the event of an assault by Miramon on that city. The impression prevails here that a similar course will be rursued at other ints wherever such intervention may be re-

quired by American interests.

It may not be generally known that the sailors are constantly drilled in the practice of small arms as well as ordnance. The latter can be used on land, as carriages are provided for their use in such an expression.

use in such an emergency.

For more than 12 months past the Secretary of the Treasury has been receiving information from the collectors, in compliance with the official instructions as to what reductions can be made in the expenses of collecting the revenue from customs. As the reports have been successively retoms. As the reports have been successively received, the reforms have been gradually carried out so far as they could be without detriment to the public service. The expenses attending the collection of revenue during the last year were about \$20,000 less than during the one preceding. The reduction of the expenses at New York and other cities, soon to be effected, is a

part of the sconomical arrangement.

The Treasury has ample means at its command.
\$1,500,000 of the late loan has not yet been called in, but can be obtained at any time, besides from \$4,000,000 to \$5,000,000 of Treasury notes can now be reissued under a recent act of Congress, and as many as may be redeemed can be reissued. Therefore, with the \$4,000,000, the Treasury has subject to draft nine or ten millions, at this time available for Treasury purposes. Within the last teu days, a million and a half in Treasury notes have been reissued at 5 per centum.

The frigate Congress is to be the flag ship of the Brazil squadron. Purser Slabin has been ordered to this vessel. A private letter from Hon. J. Glanev Jones, our Minister to Austria, says that Ex-President Pierce, who had been sojourning in Vienna, left there on the 12th of May.

LOUISVILLE PRIVATE MEDICAL DISPENSARY, stablished for the relief of the misguided and im-prudent votary of false pleasure, who, finding that he has inbibed the seeds of a certain loathsome dis-ease, is, from an ill-timed sense of shame, deterred

from applying to a Physician, whose knowledge and experience can alone befriend him in distress. DR. GATES CAN BE
Consulted at his office—the one
formerly occupied by Dr. King—
where he would call the attention of all those afficted with
diseases of a private or confidential nature, to the new method of trestment as practiced in
the English and French hospitals. Having for several years

made this class of diseases a SPECIALITY, with the knowledge he has of them, warrants him in saying that there is no form or symptom which they assume that is withut a quick and permanent cure.
YOUNG MEN-Who, by indulging in solitary habits, YOUNG MEN-Who, by indusing in solitary habits, have contracted that mind-harrowing and body-destroying disease, seminal weakness, which leads to the most alarming and fataloonsequences, should apply immediately, either in person or by letter, and have a curs effected by his naw and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.
